Highlights

Operating successfully for our first year as Port Environment Centre Incorporated

Connecting people with community and environment through our Partnership Project with the City of Port Adelaide Enfield

Supporting the community led Coastal Sand Dune Rehabilitation Project

Partnering with the Marine Discovery Centre to link our collection of Kaurna tools with their cultural education program.

Engaging our community

Providing local environmental information and resources

A community meeting place

Free environmental library

Native plant and veggie gardens

Resource Recovery Depot

Supporting local groups

The Port Environment Centre supported and collaborated with

18 community groups

14 other organisations

Working with our volunteers

828 volunteer hours by PEC volunteers and our Management Committee

Staying in touch

954 people on our mailing list

1359 Facebook & **371** Instagram followers

THANK YOU

All of this was possible because of our fantastic community, volunteers and supporters.

Port Environment Centre is seeded by Green Adelaide.

During 2020 / 2021 Port Environment Centre received additional funding (a partnership grant) from the City of Port Adelaide Enfield.

* 2020 - 2021 events and workshops include 2 events held in August 2021 with funds from 20-21 Green Adelaide funding.
